

FIRST NATIONAL PREPARATORY E-WORKSHOP FOR WRC-23
Most prominent issues and India's Preparatory Activities for WRC-23

ITU-APT Foundation of India (IAFI) is organising the first virtual cross-industry workshop to help foster a greater understanding of the key thinking and positions across different users and stakeholder groups on various agenda items of WRC-23, and add some real value to the discussions on some of the key issues ahead of WRC-23. This workshop will help the participants gain an understanding of the various agenda items of WRC-23 and key stakeholder positions across different industries and users on these issues. The workshop will also place in regional study groups as the build-up to WRC-23 continues
